SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address

BEYOND THE RIVER

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you, sir, that they are one of the neatest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know," responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense; that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place, they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist. "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidneys, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is cut the word CAPCINE.

Oh, see the girl! Is the girl pretty? Oh, yes indeed, the girl is pretty. She is very pretty and she knows it, too. Do all pretty girls know that they are pretty? Oh, no, they do not. They never know it until they are told so; that is why a great many homely girls think they are pretty.

WELLS' REVENUE BILL.

The bill introduced by Wells, of Esmeralda, says the Carson *Appeal*, providing for revenue for the government of the State, really embraces numerous needed bills in one, and is a measure which will give the State substantial benefit. Many men who go to the Legislature set about forming small bills to effect some special local interest of no great importance, but Mr. Wells has evidently devoted time and patience to forming a bill which meets the requirements of every county in the State. The virtues of the bill may be judged from the fact that in spite of the varied interests represented in the Assembly, it passed that body by an unanimous vote. Even the most captious could find but few flaws in its construction, and its author is to be congratulated that he was able to frame so bulky a document against which so little opposition should be aroused. When the bill goes into effect it will more uniformly distribute the burdens of taxation in Nevada and not compel the mass of small taxpayers to shoulder nearly all of the task of sustaining the State Government. It closes the many loop holes of fraud and chicanery which have been open in various counties, and under its binding and explicit provisions the taxpayers may be assured of a much better disposition of public moneys than has formerly been the rule.

EDITORIAL NOTES.

Senator Marker's reclamation bill passed the Senate this afternoon by a vote of twelve to eight, Senator Schooling's vote being recorded in the negative. It is now incumbent upon the members of the House to show why the agricultural interest should not have the benefit of State aid to assist in irrigating our waste lands. The more the subject is investgated the more popular the measure becomes and it should undoubtedly become a law. The people of this county would like to hear Senator Schooling's reason for voting no, and the columns of the GAZETTE are open to him for any communication he may send touching the subject.

The New York *Herald* says sugar can be raised in the Sandwich Islands and sold in San Francisco at a fair profit after paying a proper duty to the government. No prudent planter failed in the days before the treaty, and Congress can't afford to go home without doing something to relieve tax-payers. One of the measures it can most easily pass is to give notice to the Sandwich Islands that it proposes to turn into the treasury for the benefit of American tax-payers duties which for too many years it has allowed to be distributed among a handful of Hawaiian planters.

The prison at Sing Sing, N. Y., has a chaplain who drinks like a toper and swears like a trooper. One of the prisoners having reported him, he said: "By J—— C——, I'll not allow that —— —— —— to slander me when I'm around." The *Bee* says the Legislature ought to do something handsome for that officer.

The United States is worth $50,000,000,000, or $6,000,000,000 more than England, and $13,000,000,000 more than France.

All Debts Will be Paid.

LAWRENCE, Mass., Feb. 25.

The Roman Catholic churches were crowded to-day, as it was expected the priests would refer to the collapse of their savings institution. Rev. C. E. McEvery, Superior of the American branch of the Augustan Order, said he proposed soon to give a statement of the church finances. The society would leave nothing undone to meet its debts. He considered the mortgages on the church property comparatively slight; the society indebtedness was about $450,000, but with receipts from three churches and two chapels in Lawrence and Methuen, with extraordinary efforts, he hoped to meet all financial obligations in a few years. He expressed confidence that the Catholics of Lawrence would subscribe according to their means to free the church from debt. Two years ago he collected in New York, Pennsylvania and Boston $10,000, which was applied to decrease the debt of the society, which would leave nothing undone to meet pressing demands. He urged creditors to be patient, and the society would pay them all. Rev. Mr. Carr told his people that the society would not repudiate its debts, but would pay them dollar for dollar; to have patience and contribute as Catholics; they would get their money in a short time. Rev. Mr. Ryan of the St. Lawrence Church gave the same advice, and said a dividend would be paid depositors yearly and perhaps oftener. The debt was not incurred by the present heads of parishes, but all responsibilities would be met.

Prominent Catholic citizens to-night considered means to extricate the society from indebtedness, and decided to appoint a committee to have full control of the finances and revenues of the Catholic churches of the city, except St. Patrick's. A subscription paper was started and $4,000 subscribed. A fair will also be held. The committee assume the duties only with the understanding that depositors in the savings institution will not force the society into insolvency. St. Mary's parochial school will be closed, thus saving $10,000 a year. This puts 1,200 children in the public schools.

LAWRENCE, Feb. 26.

Attachments continue to be placed on the property of the Augustinian Society despite implied threats of the executive committee that no subscriptions will be called for unless suits already entered were discontinued and none others instituted. Three attachments have been served on Archbishop Williams, Boston. The society will be forced into insolvency. Subscriptions thus far towards the relief of the indebtedness amounts to $3300. Special attachments have been made of real estate recently conveyed by the society.

The Western Floods.

VICKSBURG, Feb. 25.

The water on the Vicksburg, Shreveport & Pacific railroad is 15 inches over the track between Delhi and Tauluch. It is believed trains will stop to-morrow. The Vicksburg & Minden railroad has resumed traffic. The Illawara crevasse is a mile long and has overflowed many plantations. Half of the open land on the west side of Madison parish will be covered. The Ashton crevasse above Providence is doing serious damage in East Carroll. Levees on both sides of the river are imperilled. A bridge across Bayou Pierre, on the Jackson & Natchez railroad, is washed away.

The "Passion Play."

NEW YORK, Feb. 25.

Salmi Morse was before Justice Duffy of the Jefferson Market Police Court to-day, on charge of producing the "Passion Play" without license. Capt. Williams was the only witness. His testimony was merely to show that a portion of the play had been produced. Counsel for Morse proposed to bring a number of clergymen as witnesses, and asked for a postponement. A further hearing will be held in the Court of Special Sessions on Tuesday.

A Dead Curiosity.

NEW YORK, Feb. 26.

Mrs. Burnell, a dwarf who has been on exhibition in this city, died Saturday night. Very few curiosities attracted so much attention or traveled so much. She was exhibited with her little son, the child that was never born. Her mother was of ordinary size, but her father was only thirty-nine inches high. Mrs. Burnell's child was also thirty-nine inches high. The woman was the subject of one of the few cases in which a Cæsarian operation has been successfully performed.

A Genuine Leper.

PHILADELPHIA, Feb. 25.

A genuine leper from Honolulu, brought by a steamship some months since, has been under treatment by Professor Grass, an eminent surgeon, but has been sent back uncured. He was 34 years a resident of Honolulu, his parents being emigrants from New Hampshire. He always led a dissipated life. Eight years ago he noticed red spots of skin just above his knees.

Pneumonia Epidemic.

NEW YORK, Feb. 26.

The great prevalence and singular fatality this Winter of pneumonia has been a frequent subject of comment of late, owing to the fact that so many of prominence in business and social circles have been attacked by it. Within a fortnight it has assumed the proportions of an epidemic and is so talked of by some physicians. It has appeared in a peculisrly malignant form, and has caused some speculation touching the vexed question and the troublesome mystery of its originating cause. Last week 99 persons died in New York from pneumonia, and there are apprehensions that the disease is on the increase. It is one that has always created great ravages in this city, and the records of the Health Department show that for a period of 40 years there has been an increase in the percentage of deaths from pneumonia to total mortality.

The *Tribune* says: Some interesting tables sent to the Bureau of Vital Statistics in this city call attention, among other things, to the excess of deaths in New York by pneumonia over those from the same cause in Berlin, a place of nearly the same size. Deaths in Berlin from that cause in 1882 were 1,823, while in the city of New York they were 3,475. Some unknown atmospherical influence seems to predispose New York to this illness. The mortality is confined chiefly to old people, but many persons who are still young are attacked by it. In view of these circumstances the need of great care against exposure in this trying weather cannot be impressed too strongly upon anyone,

The Great Irish Leader Under a Dark Cloud.

NEW YORK, Feb. 26.

The *Tribune's* London correspondent says: Forster's destructive attack on Parnell and the Land League has put everything else in the shade. Ever since James Carey's testimony incriminating the Land League the public has anxiously looked for Parnell to refute the growing suspicion of the Irish leader's complicity in the crime. He has been appealed to and challenged repeatedly from both sides of the House, but he has sat a whole week silent. Forster on Thursday sent him word that he intended to accuse him. The House was thronged. Forster spoke with an energy and directness that carried everything before him. When he sat down the whole House turned to Parnell, who still refused to rise. It is the first time in history that a member of the British Parliament ever declined such a challenge. A meeting of the Irish party was held immediately after, and it was resolved that Parnell must speak. After 24 hours reflection Parnell resolved to leave Forster unanswered.

Mr. Blaine Sold.

CHICAGO, Feb. 25.

A correspondent writes the *Tribune* to show that Blaine must have been sold in purchasing a painting supposed to be by Rubens, and originally owned by Lord Baltimore, founder of Maryland. He gives as a reason that Baltimore was in very limited circumstances, with no paintings except a few portraits; that subsequently members of the family have been rich and carefully treasured all things of the original members. The correspondent states that in 1863 a Baltimore saloon keeper sold such a picture as Blaine's "Old Master" for $100, alleging that a negress used it a number of years as a fire screen; but this painting was attributed to Vandyke. He is of the opinion that this is the same picture under another name.

Trinity Steeple Closed.

NEW YORK, Feb. 26.

News that Trinity Steeple has been practically closed to strangers who desire to climb its winding stairs and view the metropolis of America from an airy hight, will doubtless cause regret. The countless multitude of names carved on every available piece of woodwork within the steeple proves how popular Trinity has been with visitors. It is understood this action was taken because so many high buildings are going up that Trinity is no longer an available lookout.

The Diamond Mine Victims.

BRAIDWOOD, Ills., Feb. 25.

Memorial services of respect to the miners drowned in the Diamond mine were held this morning and addresses made by several clergymen present. In the afternoon similar services were held at the mine. The water has now been lowered 51 feet. A relief committee will leave here to-morrow morning and go to Diamond, to canvass the situation among the widows and orphans with a view of helping those who are in need.

Had Nothing to do With it.

ST. LOUIS, Feb. 25.

Captain Michael A. Doyle of this city, brother-in-law of General Macadaries denies that he ever stated that the General was connected with the Fenian movement in 1865, or at any other time, and says that to his knowledge Macadaries has never belonged to a Fenian or any other Irish political organization.

A Liar and a Blackguard.

NEW YORK, Feb. 26.

Gorringe reiterates charges in the most intense language, and styles Secretary Chandler a liar and a blackguard, and Roach a lobbyist. So it seems that Roach is at the bottom of two-thirds of the worst scandals with which the American navy has been cursed during the last 20 years.

JOTTINGS.

Minor Occurrences in and About Town.

Silence is golden, speech is silver, and cheek is brass.

Passengers on the east-bound express were very far apart.

The road to Virginia is execrable. Slush and slum predominate.

Considerable prospecting is being done in the hills back of Steamboat Springs.

The cattle men who have been hibernating in Reno are beginning to thin out.

All the leading brands of tobaccos at Nasby's. Thermometer at 7, 9, 11, 1, 3,—25, 44, 47, 51, 54.

By dint of very hard work, a few ducks are being captured on the sloughs of the meadows.

Railroad employes are "taking it easy" just now. The weather is fine and work is comparatively slack.

Six car-loads of old rails went west this morning to be worked over in the Sacramento machine shops.

Most of the trout now brought to market are lank females. In the matter of food, they are a cross between soup and mush.

The "La Gaite" Club will give their first dance at Reform Club Hall next Thursday evening. A good time is anticipated.

Gallatin & Folsom are piling in goods by the car-load. Where they put them it is hard to tell, but they are stow awayed somewhere.

C. J. Brookins goes east early in March to buy a new stock, and calls ubon all who are indebted to him to call and settle. See 50 cent column.

There are too many saloons in Reno—some 28 or 30. If an earthquake or something else should obliterate about 20 of them it would be better for the town.

A blackboard for the Pyramid school went out this morning on the stage. It was noticed that Everett and Nasby improved the opportunity to make themselves celebrated by chalking thereon an advertise ment of their wares.

PERSONALS.

President Balch of the N. & O. is back again.

U. S. Marshal Corbett was in town this morning.

Mrs. Moore, housekeeper at the Arcade, is dangerously ill.

Dr. Waggoner thinks his "Blue Elephant" mine is a big bonanza.

M. J. Franklin and wife of Virginia were guests at the Palace yesterday.

Herbert Coffin left for Luning on the V. & T. train. There were many friends at the depot to see him off.

Capt. A. C. Kristler, the Cedarville merchant, came up on the morning express and left for home.

Dr. Bourrett and wife, of Quincy, with their daughters Lucy, May and Josie, and sons Oliver and George, are guests at the Arcade.

MODOC ITEMS.

Clippings of Interest From the "Independent" of Thursday.

The stage companies had to bring sleighs into use for carrying the mails last week.

The snow last week afforded excellent sleighing for a few days.

We learn that the snow measured a foot in depth in Adin and sixteen inches in Bieber last Whdnesday.

E. Lauer has purchased 3,000 bushels of wheat in Surprise valley, which he will have hauled over and made into flour in a short time.

The storm subsided last Thursday and the weather turned cold that night. The mercury stood at 22° below zero last Friday morning.

A genuine Spring thaw commenced on Sunday and has continued ever since. The snow has about disappeared and there is mud and slush everywhere.

Parties from Goose lake report that they got a liberal supply of snow in that valley during the last storm, but the snow was not so deep as at this place.

Tom Westlake, who was sentenced to 25 years in the State Prison for the killing of John M'Cool in Shasta county about a year and a half ago, was taken to San Quentin on Friday of last week.

John Jackson finds that his cattle do not require feeding, but he has a large quantity of hay and is keeping up a few thin ones for the purpose of fattening.

Old Hank Monk.

Hank Monk is said to be lying at the point of death in his little cottage in Carson, neglected and in destitute circumstances. The people of Carson certainly owe it to themselves to see that this veteran stage driver, who has given their city a national reputation, should not suffer for anything that will smooth his way to the grave, which seems to open so near before him.

A FOUNDLING.

A Ward From the Unhappy Side of Life Left at the Depot Hotel.

A woman, plainly but neatly attired, came in on the west-bound overland last night, carrying a three-months-old boy baby in her arms. She registered at the Depot Hotel under the name of Mrs. Hicks, Eureka, and was consigned to room No. 2. It was observed that she kept a light burning all night and frequently paced the corridors of the building. This morning at 5 o'clock she was noticed by the head steward in the hallway. He asked her if she wanted anything and was informed that she wanted some milk for her baby. He offered to go and get her a pitcher, but this she declined, giving as an excuse that she wanted to get the milk from one cow, and would go out and procure it herself. The steward gave her a pitcher, and she left the hotel. Nothing more was thought of the circumstance until about 7 o'clock, when some guest of the house, hearing a baby crying very hard, visited room No. 2 and found the little one alone. Search was made for the mother, but without avail. She left a bundle of baby clothes and $2 50 in money on the table in the room; also the following note without date, address or signature:

"Do see that this child is taken care of. His mother is sick and not expected to live, and is fatherless and but three months old, and oblige
A Friend."

Mrs. Chamberlain was notified of the find and immediately visited the room and gave the waif food. She will care for it until arrangements can be made to take it to the Orphans' Home at Carson. General Davis took up a collection this forenoon to defray the necessary expenses, and to-morrow the little accident will be taken to Carson. Everything goes to show that it is another case of misplaced confidence.

PLUMAS ITEMS.

News Culled from the Columns of Our Greenville Exchange.

Mr. Hemler left yesterday morning for Lassen county to bring over a drove of beef cattle from the grazing grounds of the firm.

C. H. Higbie has sold a mining claim near the Southern Eureka mine to B. F. Leete of Reno.

The Indian Valley mill was started up by steam power on Monday and will be kept running in this way until the reservoir is again full enough to permit of a return to water power.

At Torrey's place, in Antelope valley, last Friday morning, the thermometer marked twenty degrees below zero. At Patten's place at Lone Rock, five miles distant from the former and higher up in the mountain, the mercury all shrank into the bulb of the instrument, so that it was impossible to tell what the temperature was at that place.

A few days ago the people of Crescent and the employes of the Crescent mine made a presentation of a fine gold watch to Thomas Davis, Superintendent of the Crescent. Few gifts were ever more worthily bestowed than this. A property that had lain dead for years, and that the owners had refused to spend a dollar upon was, by the energy of Mr. Davis, and almost in opposition to their will, resurrected into vigorous and profitable life, giving employment to seventy men, at good wages, and leaving a handsome profit at the end of each month.

He Keeps no Cows.

Truckee *Republican:* A subscriber wants to know "what we feed our cows on in the winter?" What do we feed our cows on? We have no cows. Cows are too rich for an editor's blood in this country. We did own a nanny goat awhile, and used to feed it on exchanges, rejected manuscript, old wrappers and strips of old rollers. It got into the waste basket one day and chawed up fourteen stanzas of original poetry sent us for publication, but without stamps for return postage. That was the last of the goat. The neighbors bring us in a pitcher of skim milk occasionally; but we keep no cow.

Just What was Needed.

The snow storm last week was just what this country needed, says the Modoc *Independent*. We have had a beautiful open Winter, with just enough storm to keep the ground moist, and this storm has furnished an abundance of snow in the mountains, so that there will be no danger of a scarcity of water next Spring. The storm coming so late in the season cannot prove disastrous to stock men, as stock is in good condition, and there is an abundance of hay in the country to last until grass starts.

"My Sweetheart."

The Minnie Palmer Company will appear at the Nevada Theater on the 8th of March. Little Minnie is said to be far ahead of Lotta or Maggie Moore in her specialties. The company has made the tour of the country and is now on its way to England.

Gone to Ranching.

E. J. Brickell, of Truckee, has bought a $15,000 farm near Haywards, in Alameda county, and C. L. Wilcox of Truckee has been placed in charge of it.

ARABIAN MILLET.

A Grass that can not be Injured by Flood or Drouth.

The new grass, Arabian millet, which has been growing on arid lands in New Zealand and Australia, is a very valuable plant in hot and dry climates, and makes more hay than alfalfa, besides furnishing a very nutritious seed. Its good points are summed up by an exchange: 1.—It is a large grain-producing plant. 2.—No animals ever bloat from eating it. 3.—It makes a greater growth than any other forage plant. 4.—All kinds of stock eat it with great avidity. 5.—It cannot be injured by flood, drought, gophers or freezing. On the hot, sandy soil of New Jersey it has been tried, with the following result: Four pounds of seed were drilled into an acre, in drills 18 inches apart. Forty-five days after sowing the first crop was cut. It was seven feet high and weighed six and one-half tons to an acre when cured. A second crop produced eight tons, and a third crop one and one-half tons. While admitting that it is a good thing, many persons object to the millet because it will spread itself if allowed to go to seed. The same objection holds good with alfalfa. Every one knows that the seeds of alfalfa are carried by the various irrigating ditches to many places where it is not wanted, and yet it is annually planted; each new purchaser of irrigated land plants his patch of alfalfa. Every objection made to the millet holds good with alfalfa, and if the millet will do half that is claimed for it, it is, indeed, the coming forage plant.

To Our Subscribers

Who contemplate a trip to New York or other Eastern points during the year 1883, we confidently recommend a patronage of the well-known Pennsylvania railway lines, which, from either St. Louis or Chicago, form the shortest and quickest routes to the Atlantic seaboard.

In the construction, equipment and operation of the "Pennsylvania" the latest improvements and safe-guards are adopted, to the end that not only should the speed and security of trains be increased, but also that travel may be so relieved of its disagreeable features as to be rendered a pleasure and luxury. On the entire main lines the heavy steel rails and oak ties are laid upon a solid foundation of broken stone, approximating two feet in depth throughout, which secures an exceptional firmness and smoothness of track, as well as total freedom from dust.

The new dining cars, smoking cars and sleeping coaches are superb in their design, appointments and service, excelling everything of the kind heretofore in use.

The "Limited Express" (fast train) which makes the distance from Chicago to New York in 25 hours, has already become very popular with Californians. It presents the *ne plus ultra* of modern railway traveling, and is acknowledged to be without a rival in America or Europe. The run from Pittsburg to Baltimore, Washington, Philadelphia and New York, is made by daylight, giving passengers an opportunity to view the beautiful scenery of the Alleghany Mountains and Conemaugh, Juniata and Susquehanna river valleys.

An additional advantage secured by the through traveler in taking this route, lies in the fact that connections at the several large cities en route are made in commodious and elegantly appointed Union passenger stations, thus avoiding the exceeding discomfort of transfer by omnibus.

Scraps of Interest From a Lively Camp.

The Chinese are keeping very quiet these days.

The first pages of Edwards' Guide are in press.

It is rumored in Nevada City that in the event Thorne is acquitted, an impromptu hanging will transpire.

A female band is organizing in Truckee. Its object is purely philanthropic. Rehearsal will be called in a day or two.

Officer Teeters is positive that he will have the needed requisition for Ah Loy by Monday, and that the Chinaman will be safely lodged in jail here by Tuesday.

The white fish are biting and some of the old fishermen are improving the "first run." A few days more of this weather and the water will be full of them.

Plasterers begin work on the American Hotel on Monday, and if the present warm weather holds out it won't be many days until the grand opening.

Frank Comstock's Birthday.

There was a lively time at P. B. Comstock's residence last Saturday evening, the occasion being the thirteenth birthday of his son Frank. All the young folks in the town were there, and many old ones. With music, dancing, singing and such cuttings up as are peculiar to youngsters, the evening was passed very pleasantly. Mr. Comstock set out an abundance of refreshments, to which juvenile appetites did monumental justice.

A FLOOD PREDICTED.

The Trouble and Damage a Warm Rain Would Create.

If the weather should moderate to any great extent, followed by a heavy rain, says an exchange, the Sacramento river would overflow its banks and flood a great deal of country along its banks. The mountains are covered with snow to a greater depth than was probably ever known in the history of the State. Every succeeding storm has increased the depth, as it has not been warm enough for two and a half months to melt the snow. The mountains north, never were known to be so white as they are at present. Lassen looks to have several feet of snow all over it, extending down to the foothills, while the main range south of it is almost one continuous belt of snow. A warm rain now, if it should continue a few days, would certainly melt the snow to such an extent as to cause floods on the lower Sacramento. A flood in the Spring of the year will be much more disastrous in its results than it would have been had it occurred in the Winter.

Lost Man Department.

Information is wanted of the whereabouts of Henry B. Lake, formerly of New Haven, Connecticut. He was a miner in 1850, and captain of the Big Oregon Bar Company on the American river. He also kept a liquor store in Sacramento the same year. James Kelly of Sacramento desires that Pacific coast papers should extend the inquiry and forward any information to him.
